ALAN OLIVER

SOFTWARE ENGINEER & EDUCATOR

PERSONAL PROFILE

I am a software developer with over 2 years experience, now working for a Blockchain company in Node JS and Golang building APIs on the backend. Prior, I have over 4 years professional experience teaching English at all ages, mostly adults.

In my spare time I enjoy learning about monetary policy, speaking Mandarin Chinese and travelling.

WORK EXPERIENCE

Junior Software Engineer

Cudo Ventures | March 2021 - present

- Develop new features on and maintain existing API.
- Contribute to backend microservice infrastructure in Golang and Node.js.
- Implement tests for software to ensure reliability.

Junior Developer

New Verve Consulting | August 2020 - March 2021

- Develop features for an Atlassian Marketplace app.
- Implement tests for software to ensure reliability.

Oral English Teacher

North Eastern Accounting and Finance University, Shandong, China | September 2018 - July 2020

- Develop curriculum for students in English, Finance and Tourism majors.
